

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Publisher's Preface

Ten thousand members of Delta Upsilon are under obligation to those who have devoted time and energy to the production of this Fraternity catalogue. Combining the practical with the sentimental, such a compilation operates through years of its currency as an implement of friendship.

This catalogue was authorized by the Convention of 1914, and late in 1915 the Trustees assumed responsibility for its publication. The editors are Lynne J. Bevan, Chicago '03 and California '05, and W. H. Dannat Pell, Columbia '09. Soon after organizing the work in the spring of 1915 Brother Bevan was compelled to make a protracted professional sojourn in Canada. Brother Pell then was made editor and with great diligence and intuitive skill continued and expanded the search for "lost" members and the correction of addresses, until the call of his regiment of the National Guard of New York to the Mexican border. Brother Bevan, having meanwhile returned to New York, again assumed the editorship and with tactful persistence completed the preparation of the copy and brought half the book through the printing office. Brother Pell returning in the Fall of 1916 heartily joined with Brother Bevan in completing the publication.

We who shall use and enjoy it should never take this volume from its shelf without a grateful thought of the brothers who gave it to us.

Editors' Preface

To Members of Delta Upsilon:

We here present to you the first catalogue of Delta Upsilon published since 1903. In the intervening years the membership roll of the Fraternity has grown from 8,238 to 13,505 and the number of active chapters from 35 to 43. In view of this growth, it was deemed advisable to eliminate the biographical data appearing in earlier catalogues and to give only the name, college, year, occupation, business and residence addresses.

The editors have spent all available time and ingenuity in obtaining up to date addresses for every member. If any reader find an error or omission let him blame the individual who failed to keep the Fraternity or his chapter posted as to his address and occupation.

The geographical list was set up later than the list by classes so that in case of discrepancy in addresses the one in the geographical list should be used. The asterisk (*) is placed before the name of each member who is known to be deceased.

Chapter abbreviations are interpreted on page 8. Other abbreviations are beieved to be plainly evident.

In the geographical list it is to be remembered that the City of New York is subdivided into Astoria, Brooklyn, Corona, Elmhurst, Far Rockaway, Flushing, Fordham, Forest Hills, Jamaica, Maspeth, New York, Richmond Hill, Staten Island.

The editors have appreciated the careful reports of the Associate Editors, Secretaries of Delta Upsilon Alumni Organizations, Registrars of Colleges, and Town Clerks, who have greatly assisted in providing us with up to date data. We also express special appreciation of the services of Bradford Gill, Chicago '10, in the second largest fraternity center—Chicago. And we are under obligations to the assistants in the Fraternity office—particularly Miss Luella L. Bovard and Miss Florence A. Decker for their patience and care and for their many helpful suggestions.
